

Dr. Robin Schader received her Ph.D. in Gifted and Talented Education from the Neag School of Education at the University of Connecticut where she is currently an assistant research professor. She is the parent resource specialist for the National Association for Gifted Children and her work and research focuses on talent development, particularly with respect to the role of parents. She presents at numerous workshops and conferences and works with both teachers and parents to match educational programs to student needs. Robin has presented at numerous regional, national, and international conferences. Her publications include a regular column in Parenting for High Potential, the newsletter Connecting for High Potential, as well as articles such as "Decisions Regarding Music Training: Parental Beliefs and Values" in Gifted Child Quarterly; and "Recognizing the Role of Chance" in Roeper

Review.

Robin is the mother of three gifted children (now grown) who each generously contributed to her education as a parent!
